

War Trophy Contest in Indiana

Which Lake county city will get its war trophy first? Practically every county seat town and city in Indiana has filed claims for a German cannon and other war trophies. As yet no plan has been worked out for dividing the trophies among the various cities. The first intimation of the quantity of German guns that will be available for distribution in the various states is given in the report which Secretary of War Baker has sent to the Kahn committee.

Indiana will be allotted about 2,600 pieces of war material captured by the American troops from the German army according to the confidential memorandum which the War Department filed today with Chairman Kahn of the House military committee.

The trophies include several large artillery pieces, trench mortars and machine guns and a large number of rifles, bayonets and other small articles. The distribution of captured war trophies will be made among the several states under the provisions of the Wadsworth bill which already has passed the Senate and is being considered by the House.

The trophies to be allotted to the several states aggregate 2,107 artillery pieces, 4,000 war vehicles and \$41,117 small articles of various kinds.

The states will share in the trophies in proportion to the percentage of the troops contributed to the service. Indiana sent 234 per cent of the total number of troops of the American army.

Indiana, according to the statement submitted to Chairman Kahn will receive thirty-nine German howitzers, ranging in size from the 75 mm caliber to the 210 mm; there also will be 21 trench mortars of various sizes, 175 machine guns, 110 vehicles, 1,920 rifles, 1,044 bayonets and scabbards and a large number of small articles such as feed-bags and badges.

ODDFELLOWS PAST GRANDS AT GARY MEET

The Past Grands Association of Lake County has been invited by the Steel City Lodge of the I. O. O. F. to confer the initiatory degree upon a class of candidates on Friday evening, March 25th at their hall on east 6th st. Gary. Invitations have also been extended to members of all the Lake county lodges of the I. O. O. F. and a large attendance is expected.

The meetings held by the Past Grands Association are receiving favorable notice all over the state, and it is expected that there will be several similar organizations formed in the different counties of the state.

Charles Luthman of Hammond, who was recently appointed degree captain will endeavor to complete his selections for the first degree staff at the meeting in Friday. This staff will probably be selected to represent Lake county at the Indianapolis session of the Grand Lodge and there is a keen interest shown by Lake county Past Grands to secure a permanent place on the team.

E. CHICAGO'S NOTED COW CASE SETTLED

East Chicago's cow case was settled. Shortly before noon today the jury which had been hearing the evidence in Room 2 of the Hammond superior court brought in a verdict for the plaintiff, Joe Kovack, and fixed his damages at \$100.

Three years ago the defendant, Eda Regaly, claims to have lost a cow. He

advertised for her and a short time afterward found one which he claimed was the missing one. He took her up. This aroused Joe Kovack who said Regaly had appropriated his cow.

The evidence introduced yesterday in identifying the cow was of such a minute nature even covering small spots, one-sixteenth of an inch in diameter, that it was thought best to transport the jury to East Chicago to have a look. One witness for the defendant was so sure that it was the cow she knew that she told how Bossy on returning after being lost had been quite glad to see her. In fact Bossy had cried, she said. The jury was all agree to see how a sentimental cow.

The jurors were taken to the Regaly barn and Bossy was matched out. She was put through her paces and all of the identification marks of both sides were pointed out. She could not be induced to weep though. This morning the attorneys in the case made their arguments and after deliberating about an hour a verdict was brought in. The jury decided that Bossy was worth \$75 and that Regaly had unlawfully detained her. The costs in the case amounted to several times the value of the cow.

E. CHICAGO TO FOLLOW GARY PLAN

East Chicago should take action corresponding to that taken by Gary in regard to the proposed sanitary district for the Calumet region. This seemed to be the opinion held by most of the business men who attended the informal discussion meeting of the East Chicago Chamber of Commerce yesterday.

The question of what action should be taken by the city was placed before the Chamber of Commerce by E. W. Wickey who was a member of the committee which a few years ago was appointed to investigate the advisability and cost of a sanitary district which would take care of disposal of sewage from each of the cities of the district. The report which was formulated at that time, according to Mr. Wickey and city Engineer C. K. Wallace, showed that East Chicago had little to gain and much to lose if such a system should be established. It was estimated that East Chicago would pay for the construction of a half times as much for the sanitary district as would be spent for actual construction in the Twin Cities.

It was reported that a sewage disposal plant for the Twin Cities could be installed with little delay and at a reasonable cost at this time. Mr. Wickey placed the matter before the body for consideration and suggested that next week the chamber go on record as favoring the construction of a sewage disposal plant for the Twin Cities at once. It is proposed to bring the matter to the attention of the Board of Works.

C. N. Wilcoxson of the South Shore lines were present at the meeting and also introduced the new traffic manager of the line, Mr. Forbes. Mr. Wilcoxson stated that for eleven years the company has operated without a cent of profit and that although it is their desire to serve the public in every way possible it must henceforth be at a reasonable profit to the company. The company is willing, he said, to co-operate with other roads running into Chicago in issuing tickets good on all roads.

A Little Talk With Non-Savers

Making good wages and not saving part of your pay?

Then you aren't giving yourself a square deal.

You owe yourself better treatment.

It isn't so hard to keep part of your dollars if you will deposit them in a savings account when you cash your check at the bank. There they'll be safe, working—for you.

Labor is too serious and too hard a thing to do and then let go all the returns from it. A savings account book will help you keep part of your pay check.

A Crash—And Then The Profits of Weeks

Plate Glass, size 120x170, in this district cost \$136 in 1915, \$306 in 1918, and \$452 in 1919. This was the actual cost of the Glass and did not include setting, boxing or freight charges.

A few years ago a store owner might have been able to get along without Plate Glass Insurance, but he can't afford to do that today. Especially not, when a broken Plate Glass Front, unprotected by insurance, may wipe out the profits of several weeks.

With premiums so reasonable it is economy to have an Aetna Plate Glass Policy. An Aetna stands between the store owner and rising costs of glass and glaziers' wages—ring East Chicago 950 if you want our Plate Glass Insurance man to protect you against the risk of losing several weeks' profits.
